

What Are You Currently Spinning? CD Tree Trade

Rules and Directions

1. Those interested in trade will make a mix CD of songs they are Currently Spinning and send it to the person acting as "Central Hub."
2. Once the person acting as the Central Hub receives all the mix CDs, he/she will duplicate the discs.
3. The person acting as the Central Hub will then begin the trade distribution by sending it to one person on the trade list.
4. The first recipient will duplicate the CDs and send them to the next person.
5. This process of receipt, duplication and mailing to the next person on the trade list continues until reaching the last person on the trade list.
6. The last person on the trade list will mail blank discs to the central hub (do so when sending in mix cd).

NOTE: The number of participants involved in the trade was kept low for demonstration purposes.
